

MACOMB FOOD COLLABORATIVE

In 2011, a diverse group of agencies, organizations and community members from throughout Macomb County came together to address food issues.

OUR MISSION:

To work together to ensure access to safe, fresh, fair and healthy food for all. We promote a vibrant, local food economy, sustainability and good nutrition through education and outreach.

SPECIFIC GOALS INCLUDE:

- Provide a forum to discuss food issues and food access in Macomb County and beyond.
- Improve awareness regarding healthy food access for all.
- Encourage economic development by supporting growers, processors and distributors along with small and mid-size food business owners.
- Expand and diversifying membership – all are welcome.
- Foster cooperation between all the major and minor players in our local food system.
